SANGIOVESE

DR. CRANE VINEYARD
ST. HELENA, NAPA VALLEY

Bing cherry, cranberry, and baking spices leap from the glass of this vibrant Sangiovese. Red fruits burst through the foreground, then notes of earthy undertones and fresh mushrooms unfold.

There is something quite floral about this wine, and with its bright and lively profile, it is reminiscent of the first days of spring. Soft on the entry, natural acidity and a lush mid palate carry this wine through to a long finish, which boasts a hint of cinnamon. Unfiltered and aged in neutral oak, this wine is a true expression of the classic Italian varietal.
