2017

## SANGIOVESE

DR. CRANE VINEYARD  
ST. HELENA, NAPA VALLEY

Our limited production Sangiovese opens with fresh black cherries, blood orange peel, and a hint of cinnamon. Crafted in neutral oak to avoid overpowering the wine, raspberry and cranberry appear in the layered nuances of fruit flavors. Featuring a smooth entry and medium body, the bright acid pairs well with mild tannins and finishes quite long. Initially a primary expression of red fruits, as time allows savory notes - thyme, forest undergrowth, and fresh earth are unveiled as the wine aerates in glass. This wine is a refreshing take on a classic Italian variety.
